## Mass Meeting Tonight to Discuss School Bond Issue

### PUBLIC INTEREST DEMANDS THAT TAFT BE ELECTED

Says President Roosevelt in Letter to Chairman of Congressional Committee.

Present Administration Policies Would be Developed.

### FAVORABLE CONGRESS NEEDED

Sagamore Hill, Oyster Bay, N. Y., Sept. 21.—It is urgently necessary from the standpoint of public interest, to elect Mr. Taft and a Republican Congress, says President Roosevelt in a letter to Hon. William B. McKinley that has been made public. The text of the letter in full is as follows:

"My Dear Sir: I have received your letter of August 28. I agree with all that you say as to the amount of affirmative and constructive legislation for the social and economic benefit of our people which has been accomplished by the Congress during the last seven years. The law establishing a national system of irrigation was of vital importance, and stands in its line as second only to the homestead law. The interstate commerce law has been amended so as to make it a new law, with three-fold the efficiency of the old law. The enactment of the pure food law was of almost or quite equal importance. The creation of the department of commerce and labor, together with the creation of a bureau of corporations, which marks the beginning of federal control over the huge corporations doing an interstate business, the employers' liability law, the safety appliance law, the law limiting the working hours of railway employees, the meat inspection law, the law making the government anti-trust law, the law increasing the powers of the department of justice in dealing with those, regardless of wealth and power, who infringe the law, the law making the government liable for injuries to its employees, the law under which the Panama canal was acquired and is being built, the Philippine administered, and the navy developed, the law creating a permanent census bureau and reforming the consular service and the system of naturalization, the law forbidding child labor in the District of Columbia, the law providing a commission under which our currency system can be put on a thoroughly satisfactory basis, the law for the proper administration of the forest service, the law for the admission of Oklahoma and the development of Alaska, the great appropriations for the development of agriculture, the legal prohibition of campaign contributions from corporations, all these important but a portion of what has been done by Congress, and form a record of substantial legislative achievement in harmony with the best and most progressive thought of our people.

"It is urgently necessary, from the standpoint of the public interest, to elect Mr. Taft, and a Republican Congress, which will support him; and they work election on a platform which specifically pledges the party, active in its executive and legislative branches, to continue and develop the policies which have been not merely professed but actually carried out during these seven years. There policies can be successfully carried through only by the hearty co-operation of the president and the Congress in both its branches, and it is therefore peculiarly important that there should obtain such harmony between them. To fail to elect Mr. Taft would be a calamity to the country; and it would be folly, while electing him yet at the same time to elect a Congress hostile to him, a Congress which under the influence of partisan leadership would be certain to thwart and hamper him on every possible occasion. To elect Mr. Taft, and at the same time to elect a Congress pledged to support him, is the only way in which to perpetuate the policy of the Government as now carried on. I feel that all the aid that can be given to this policy by every good citizen should be given; for this is far more than a merely partisan matter.

"Both your committee, and the national committee, of which Mr. Hitchcock is chairman, are endeavoring to secure the active co-operation in the campaign of senators and congressmen, party leaders and independent citizens generally. I most heartily join in urging the importance of such co-operation. I hope that every disinterested private citizen, whose sole concern in politics is to have the right kind of man carry out the right kind of policy, will join in backing

### Chelsea, Mass., Again Visited by Destructive Fire--Aid Summoned From Surrounding Cities

Militia May be Called to Assist in Fighting Forest Fires That Are Now Raging in Wisconsin.

Chelsea, Mass., Sept. 21.—Fire is sweeping that section of Chelsea which escaped conflagration last winter. The fire broke out at 1 o'clock and within an hour destroyed a box factory and sixteen houses. It is now beyond control. Aid was summoned from Boston, Malden and Everett.

The fire started in an ice house near the railroad tracks and believed to be incendiary. The Arnold McManus box factory was destroyed and many employees had a narrow escape. The Pope lumber yard, Lee Brothers Shoe Company, Carr Bros. Laundry, Chelsea Clock Works and the Little Works were burned out and a dozen tenement houses destroyed. A gale in the wind drove the fire toward the wrecked district. The loss will be a million dollars.

Wisconsin Forest Fire. Milwaukee, Sept. 21.—Two engines of the fire company have been dispatched to Rhinelander to assist in fighting a new forest fire which has destroyed Gagen, Wandor, Monett, Curtis, Moon and Ladysmith. Other towns are also threatened. Unless the wind changes it is feared all will be destroyed. Four thousand are already homeless. The governor may send a regiment of militia to take charge.

Powell Surrenders. Quietly walking into the police station William A. Powell, the collector for the Universal Supply company, surrendered to Police Lieutenant Powell Saturday night. Powell is charged with shooting Major and Oscar Prichett, two negroes. Powell has been in Ballard county, but some of his time has been spent in Paducah at work, although he was not seen by the police. Mr. Powell did not try to escape arrest but merely waited until his attorney returned before surrendering. Powell gave bond for his appearance, and it is the general opinion that he will be acquitted, as the negroes had knocked him down when he used his pistol.

Mr. and Mrs. W. T. Reid, 2322 Broadway, are the parents of a fine baby girl, born this morning.

### HER DREAM OF HIDDEN TREASURE DID NOT COME TRUE--OFFICERS STUNG

Mysterious Grave in Ben Ligon's Yard Explained to the Coroner.

Superstitious notions of Ben Ligon, related digging for a supposed treasure that was hidden in his back yard, put Detective Henry Bailey, Patrolman John Hession and Coroner Frank Baker to work yesterday, but the mystery was unveiled and it rested on a dream book. Last week Ligon, who lives on Caldwell street between Eleventh and Ninth streets, was seen digging in his back yard between midnight and 2 o'clock in the morning. Wild stories started and Patrolman Hession received a tip that a body had been buried. Quietly the cop ascertained that a fresh mound had been formed.

Detective Bailey was confided in, but after a conference with Police Judge D. A. Cross it was decided they did not have evidence to warrant them digging up the grave. Coroner Frank Baker was called into consultation and they decided to dig out the mystery. Yesterday afternoon the trio took a roundabout way and met at Ligon's home. Patrolman Hession was in uniform and demanded from Ligon what was in the grave, but Ligon responded "nothing." The cops were bothered and

up your committee as well as the national committee in this movement. No service is as effective, as valuable, as the disinterested service given in such manner by men whose one concern is for the triumph of the principles in which they believe; and I appeal with all the strength there is in me to such men to give such support. Sincerely yours, THEODORE ROOSEVELT.

### TWO THOUSAND PREACHERS LOBBY AT INDIANAPOLIS

Indianapolis, Sept. 21.—Two thousand ministers arrived here to lobby for the passage of the local option bill at the special session of the legislature. The Methodist conference at Shelbyville adjourned to join the lobby. A thousand more preachers are expected. The bill promises to arouse the hottest legislative fight for years. The brewers claim fifteen Republicans are pledged against the bill.

The preachers held a mass meeting in the state house yard, singing and praying to the great crowd that assembled. Ten thousand were about the building when the session opened. The ministers captured the senate and representative galleries and declare they will overawe the legislators.

### Hill to Support Bryan

Washington, N. Y., Sept. 21.—After a visit to Senator Hill last night Bryan announced that Hill will support the Democratic ticket, but declined to state whether Hill will take the stump or not.

### Miss Margaret Kenny

Miss Margaret Kenny, 25 years old, died Sunday night at Riverdale hospital after an all summer's illness of malignant fever. Miss Kenny became suddenly worse Friday afternoon and was taken to the hospital but continued to grow worse until Sunday night at 10:15 o'clock, when she died.

Miss Kenny resided with her mother, Mrs. Mary S. Kenny, and several brothers and sisters at the family home, 507 South Fourth street. Those in the immediate family surviving Miss Kenny are her mother, Mrs. Mary S. Kenny, of Evansville, Mass. Grace and Mattie Kenny, and two brothers, Messrs. P. C. Kenny and Harry Kenny.

The body will be taken tomorrow to Elizabethtown, Ill., and the funeral and burial will take place tomorrow afternoon.

### SEVEN PEOPLE SHOT IN FIGHT AT A CHURCH

Danville, Sept. 21.—Seven people were shot, several dangerously, inside a big tent meeting at Moreland, near here. The trouble originated when Marshal Parrel tried to subdue a disorderly crowd. The trouble caused a panic and a number of people were slightly hurt in the rush.

### Author Suicides

Cincinnati, Sept. 21.—Alexander Starbuck, noted author, fisherman and naturalist, suicided in the government building this morning.

### Hitchcock in Control

Bulletin—Cincinnati, O., Sept. 21. Secretary Taft wired Hitchcock to not worry over publications that the campaign management is unsatisfactory and he is to be supplanted. Says he has full confidence in Hitchcock and welcomes Crane's assistance. Hitchcock is to have supreme control. It develops that Hitchcock offered to resign Thursday but Taft refused to consider such an action.

Tonight at the High school the school board will hold an open session for a consideration of the bond issue. All of the citizens, whether in favor or against the issuance of the bonds, are invited to be in attendance. The women of the city are especially urged to attend. Should the bond issue be approved the meeting will be held in the High school auditorium. The meeting will begin at 7:30 o'clock and interesting addresses will be made. The trustees invite every citizen to attend the meeting, as it will affect the schools. It is claimed that if the bond issue is not passed it will mean the closing of the schools at the second term. If interested in the welfare of the schools it is your duty to go to the meeting tonight.

### COUNCIL WILL CONSIDER OIL TANK QUESTION

At Regular Meeting Tonight—Matter Has Been Deferred For Two Weeks.

Alderman Miller Thinks Matter Should be Settled.

### COLO. ACCIDENT DISASTROUS

Some action to compel the Standard Oil company in Paducah to remove its tanks from the city limits or else to remove the same where there is no surrounding property to be endangered, will be taken tonight by the board of councilmen, which meets in regular session at the city hall.

The matter was deferred two weeks ago until tonight in order that further investigation be made. According to the city officials and Fire Chief James J. Woods the tanks are a menace to that vicinity and should a fire break out among the big tanks valuable property would be destroyed. Alderman W. T. Miller has made the conditions a matter of investigation in behalf of the city and he has allowed nothing to slip by. In order to ascertain how the company is dealt with in other cities he has written letters of inquiry.

George W. Oliver, an attorney-at-law in Las Cruces, N. M., after reading accounts of the controversy between the city and the oil company in The Sun, wrote Mr. Miller of the great risk of permitting the oil company to retain its tanks in the city limits. He sent a copy of the Albuquerque Morning Journal giving an account of a disastrous fire to the oil tanks of the Continental Oil company at Loville, Col., on September 9. Not only was the property of the company destroyed but the surrounding property, at an immense loss. Mr. Oliver wrote that personally he had no interest in the matter, but to his mind the company here should be compelled to move its tanks to a place where it would not endanger so much other property.

Mr. Miller said this morning that the matter would be gone into with him tonight and some action taken. He said that in case a fire should start in the tanks property included in several squares' radius would be burned and in addition there would be danger from the loss of life.

City Solicitor James Campbell, Jr., has received numerous letters from cities of the size of Paducah and other larger places. In some instances the company is governed by ordinance while in other towns it is not. It is probable that an ordinance will be ordered providing for the storage of oil in the city limits and ordering the tanks removed.

### SEVEN PEOPLE SHOT IN FIGHT AT A CHURCH

Danville, Sept. 21.—Seven people were shot, several dangerously, inside a big tent meeting at Moreland, near here. The trouble originated when Marshal Parrel tried to subdue a disorderly crowd. The trouble caused a panic and a number of people were slightly hurt in the rush.

### Strike of Workman Will Limit the Production of Cotton Goods One-half--Manchester Mills Are Closed

### SUPT. SECURES TEACHER OF LANGUAGES

After a generous use of the telegraph wires, Superintendent J. A. Carnagey received the acceptance of Miss Edna McLaughlin, of Galesburg, Ill., as modern language teacher in the High school to succeed Miss Susan E. Smith. Thursday Miss Smith resigned, and tomorrow Miss McLaughlin will arrive and take charge of the work. The new teacher is a graduate of the University of Illinois but last year took a post graduate course at the university in language work. She accepted the position yesterday, but Superintendent Carnagey wired her acceptance this morning. Prof. Carnagey believes that he has secured a competent teacher for the position, and is lucky that he secured any one at all, as all teachers have positions this early in the school term. With the work in the languages beginning tomorrow, the department will be delayed only a week.

This week Prof. W. H. Sugg will call a meeting of the old editorial staff to resume the publication of the "Shkodah." The High school monthly. As the attendance in the High school is larger this year it is hoped to make the little paper better and brighter than ever. This will be its fifth year, and besides being interesting for the students, is good training. Many of the old editors remain, and at the meeting the staff will be reorganized and an issue published next month.

Miss Lula E. Cochran, a teacher in the Longfellow school, returned to her room this morning after a short illness. Miss Bessie Smedley was substitute during her illness.

### Preacher Held

Vandalia, Ill., Sept. 21.—The Rev. P. L. Newman, a Baptist preacher, has been held under a thousand dollar bail on the charge of taking improper liberties with two 8-year-old girls. The congregation deserted Newman when he waived examination. Newman's father, a preacher of Trenton, Mo., is coming here to defend his son.

### Eugene Richardson Dead

Mr. Eugene Richardson, 21 years old, died at the home of his parents, 320 South Third street, Saturday night at 12:40 o'clock, after a lingering illness.

Mr. Richardson was born and reared in Paducah, and lived here all his life until last winter, when he went to St. Louis, to work for the Hamilton Brown Shoe company. In February he was taken ill with typhoid fever and the fever developed into a complication of disease. Gene Richardson was one of Paducah's most popular young men.

He is survived by his parents, Mr. and Mrs. E. B. Richardson, three sisters, Mrs. Oscar Jones, of San Bernardino, Cal., Mrs. Charles Wilstach and Miss Cora Richardson, of Paducah, and two brothers, Mr. William Richardson, of Chicago, and Mr. Charles Richardson, of Paducah.

The funeral was held this afternoon at the First Baptist church by Rev. M. E. Doid. The burial was at Oak Grove cemetery.

### WEATHER.

FAIR. Fair tonight and Tuesday. Highest temperature Saturday, 92; lowest Sunday, 66; highest temperature Sunday, 80; lowest today, 72.

Proposed Reduction of Workman's Wages Five Per Cent Causes Walkout at English Mills.

Manchester, Eng., Sept. 21.—Four hundred cotton mills closed today owing to the rejection of a five per cent reduction in wages by 130,000 workmen. All hope of avoiding a general strike in the cotton industry has been abandoned. It is expected 1,200,000 men will quit. The world's production of cotton goods will be cut in half.

### Murderer Hanged

Kingsport, Mo., Sept. 21.—Albert Filley was hanged at 6 o'clock in the county jail for the murder of his wife, daughter and brother.

A crowd of hundreds surrounded the jail and threatened to lynch Filley if a reprieve was granted at the last minute. They cheered when his death was announced. Filley proclaimed his innocence to the last. His neck was unbroken by the drop, and he hung fifteen minutes before he was pronounced dead.

### Senatorial Committee

The executive committee of this senatorial district, composed of McCracken, Marshall, Carlisle and Ballard counties, is in session at Judge W. A. Berry's office this afternoon to consider the question of calling a senatorial primary. A tip is out that the committee will defer action on the matter and not call a primary for November.

Judge R. Harry and J. H. Wyatt, of Marshall; John M. Moore, of Ballard, and W. V. Eaton, of McCracken, are prospective candidates.

### Horse Show at Sharpe

Sharpe, Ky., Sept. 21.—(Special.)—A horse show was held at Sharpe Saturday afternoon and all of the farmers in the vicinity had their fine stock on exhibition. About two hundred were present at the showing. The first prize for the best mare was captured by Will Flowers and the second premium went to it. A. S. Sear. For the best male colt the first premium was awarded to S. English and second honor went to Will Knoloph.

### FORAKER WILL SEEK RE-ELECTION TO THE SENATE

Cincinnati, Sept. 21.—Although he has eliminated himself from the Taft campaign, Senator Foraker has announced that he intends to seek re-election to the senate. He will defend himself against the Hearst attack and intends to help elect the legislature. Hereafter the executive advisory committees have a greater voice in plans for the campaign Taft conferred with Senator Bradley, of Kentucky, and reached an understanding regarding the Kentucky campaign. Senator Bradley promised to take the stump for Taft.

Chairman Crane issued a statement that he is satisfied with Hitchcock's management and announced that W. C. Brown, of Missouri, had been appointed assistant manager of the speakers' bureau.

### NOMINEES OF POPULIST PARTY GO ON BALLOT

Two hundred more than the required number of names have been secured to the petitions asking that the name of J. W. Graham and the Populist electors be placed on the official ballots at the November election. Copies of the petition were sent out today to the county clerk of every county in the district. Mr. Graham spoke Saturday to a big crowd at Brandon's chapel, Lyon county.

### SUNDAY SERVICES WERE SUCCESSFUL AT ALL CHURCHES

Pastors Declare Yesterday Was One of Most Successful Fall Sundays.

New Pastor Expected at Tenth Street Church.

### IMPORTANT ANNOUNCEMENTS

Sunday brought out large congregations at all Paducah churches and the services both morning and evening were well attended. The attention given the sermons was pleasing to the ministers, who mark down yesterday as one of the most successful fall Sundays.

Unusually splendid were the services at the Broadway Methodist church, both in work and attendance. Special music was given at each service. Miss Emma Knauss, of Evansville, a niece of Mr. H. C. Rhodes, rendered two sweet vocal solos in the morning and evening and Mrs. Lella Wade Lewis sang in the evening. Yesterday was the third rally day service at the church and six applications for membership were received by the pastor, the Rev. G. T. Sullivan.

Next Sunday a special rally for the Sunday school will be given and an elaborate program is being arranged. The program will replace the regular lesson service and will be attended by the full membership of the Sunday school. Next Sunday and Sunday week will be Decision Day. Yesterday evening the Reverend Sullivan reinstated the Junior League services which were suspended during the summer. Miss Elizabeth Graham was selected lady manager and Mr. William Blackard was elected president. The Reverend Sullivan predicts a successful winter for the league.

### Tenth Street Christian.

The Rev. George A. Llewellyn, president of the West Kentucky college at Mayfield, preached to a large audience at the Tenth Street Christian church Sunday morning. His theme was "The Parable of the Sower." The congregation has secured the services of Rev. Llewellyn until the arrival of the new pastor, the Rev. Charles E. Jackson, of Sandersville, Ga. The Reverend Jackson is expected to be present and preach his initial sermon the first Sunday in October. He is well qualified for the pastorate, having attended the Kentucky Bible College at Lexington for six years. He has been preaching for the Christian church at Sandersville for a number of years.

### First Baptist.

The audiences at the First Baptist church are enjoying immensely the congregational singing and the interest manifested is clearly seen in the large congregations every Sunday. Last night the church was taxed to its fullest seating capacity and large numbers crowded the gallery. Next Sunday will be rally day for the Sunday school and a special program will be prepared.

### First Christian.

The First Christian church enjoyed good sized congregations yesterday. At the morning service Dr. Moore spoke on the subject of "Some Great Meetings," setting forth the value of conventions of religious people to the community and to the individuals. The evening sermon was to young men and contained much valuable advice to young men starting out in life. Some of the safeguards mentioned were: Love of home, high ideals, good books, respect for holy things and proper observance of the Lord's day. A number of the congregation will attend the state convention of the Christian church at Hopkinsville this week.

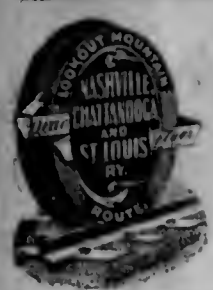

### Bible Day Services.

The Bible day services conducted in the Sunday school at the German Evangelical church, on South Fifth street, yesterday morning were a success. Twelve babies of the cradle roll were present. The church services were well attended in the morning and evening.

## ELKS WIN FROM KNIGHTS COLUMBUS

In Well Played Game at Park Yesterday.

Was a Genuine Pitchers' Battle With Hotch and Brown as the Slah Artists.

FINAL SCORE WAS 4 TO 2.

In one of the prettiest games of the season, the Elks won from the Knights of Columbus yesterday afternoon by a score of 4 to 2. The game was the third of the series and was a pitchers' battle between Brown for the Elks, and Thomas Hotch for the Knights. All of the players gave good support. The Knights of Columbus made six errors, according to the scorer, while the Elks were guilty of two misplays. Hotch yielded five hits and Brown let the Knights down with three safeties. Eddie Brahe caught for the Knights while Arnold was in center field. The Elks were crippled, and Howell, Albritton and Howard, of the Mayfield team, helped out. As shortstop was open, Driece, an Elk from Cincinnati, and an old leaguer, filled the gap. He was the only player knocking out two hits.

The game opened with something doing for the Knights. Brahe, led off with a single. Arnold was out on first base. Brahe stole second base and scored of a fielders choice when Donovan hit to the infield and was out on first sack. Nothing more was in the score line until the fourth round when the Elks broke into the fun. Driece got a single, and on an overthrow of Anderson to catch him stealing, Driece counted over the fan in the sixth inning the Elks bagged two runs. Goodman was given a ticket, and Head was jabbed in the ribs moving Goodman up to second. Lloyd sacrificed, and reached first. Driece was out to first base, but Goodman registered. Boswell flew out to Arnold, and on the throw in Lloyd scored, making four runs. In the eighth inning Lloyd reached first base on error of J. Hugg. Driece got a single while Lloyd went to third. Barringer laid down a pretty hit, and Lloyd went over the pan in the squeeze play before the Knights could handle the ball. In the ninth inning the Knights went forth with the do or die spirit, but one run only was made before the curtain was dropped. Brahe went out, Boswell to Lloyd, Arnold walked. Donovan hit to the infield and advanced Arnold a peg. J. Hugg hit a screamer through Barringer, but Arnold was thrown out when he tried to score. McKenzie hit a long fly to Wolff in right, and after a splendid run Wolff nabbed it on time while Donovan scored.

Both pitchers walked two men and each hit a man. Brown struck out ten batters while Hotch fooled six. The teams lined up:

Elks—Albritton, c; Brown, p; Lloyd, 1b; Barringer, 2b; Howell, 3b; Driece, ss; Goodman, lf; Howard, cf, and Wolff and Head, rf.

Knights of Columbus—Brahe, c; Hotch, p; Anderson, 1b; J. Hugg, 2b; Donovan, ss; L. Hugg, 3b; McKenzie, lf; Arnold, cf; Tranham, rf.

**Dope.**

Driece has played in the Kitty league. He lost Chief Lloyd Saturday night and he readily consented to help out his brother Elks.

Wolff made a pretty backward run after the fly in the ninth and it ended the fireworks for the Knights.

Although crippled, Goodman was in the game all the time.

It looked good to see Eddie Brahe back in uniform, and he handled the shots well.

Howard, Boswell and Albritton put up a good game of ball and helped towards victory.

Hotch twirled a good game and with a little more luck might have had the score closer.

**Gullies Heat Stars.**

In a ten inning game the Gullies won from the Mayfield Road Stars yesterday morning on the shop diamond. The batteries for the Stars was Dickey and Cather, and for the Gullies, Mercer and Gallagher. The game was full of excitement, and the amateurs went ten rounds before the tie was over.

## NOBODY SPARED.

Kidney Troubles Attack Paducah Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years—

Can't control the kidney secretions. Girls are languid, nervous, suffer pain.

Women weary, can't do daily work. Men have lame and aching backs. The cure for man, woman, or child, is to cure the cause—the kidneys.

Doan's Kidney Pills cure sick kidneys—

Cure all forms of kidney suffering. John Stanley, farmer, living six miles south of Paducah, Ky., says: "My boy, aged 12 years, was a sufferer from weak kidneys for a number of years. He did not have any control over the kidney secretions and this caused us much annoyance especially at night. He complained of his back aching him and last summer his general health became run down. We had a doctor from Louisville treat him, but one week he would be better and the next worse. I had often read of Doan's Kidney Pills, so decided to give them a trial, and procured a supply at Datto's Son & Co.'s drug store. The boy took them as directed and at the end of the first week he could control the secretions and the annoyance at night, which had caused me so much work, was removed. We continued to have him take Doan's Kidney Pills for three months when they made a complete cure."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

**COLLEGE NOTES.**

The employment department of Paducah-Central Business College, which is free to its pupils only, has made a number of changes during the past week. Mr. Robert Harkey has been placed with the Coca Cola bottling company as bookkeeper; Mr. Fred Wnde, bookkeeper at Foreman Bros; Mr. Lucy Wren, bookkeeper at J. R. Provance & company; Mr. J. K. Gregory, at Hammond Packing company; Miss Flora Seaman, stenographer at Washington High school for Prof. Carnegie; Miss Ruth Rountree, stenographer at Wallerstein's. The following were unassisted: Miss Mary Harriman, at Miller & Miller, attorneys at law; Miss Anna Hill, at George H. Goodman's, and Miss Teresa Kirchoff also at George H. Goodman's. The college reports it has five other vacancies yet to fill in the next three days.

**GEORGIA ABOLISHES LEASING.**

BH Petition, Leasing of "Overs," However, By Governor.

Atlanta (Ga.), Sept. 21.—At 1 o'clock this afternoon the extra session of the general assembly finished its work and adjourned sine die. The much-discussed convict labor bill, as passed, leaves all convicts not taken by counties on a pro rata distribution, not taken by municipalities at \$100 per year, or not needed on the state or other state institutions, to be disposed of at the discretion of the governor and the prison commission. It is believed that this will end the lease system definitely on March 31, 1906.

The main point of difference between the houses has been as to the disposition of those "overs." The senate suddenly changed its position, agreed to the house contention and passed the bill.

"You are a poor young man" "I am." "Then what you want is a thrifty, economical wife." "Not at all. What I want is a rich, liberal wife."—Louisville Courier-Journal.

## GARDNER TAKES WITNESS STAND

Sory Told Him Something Out It to be Done.

Sory Stationed Hunt and Witness at Cross Roads Which Was Scene of Killing.

TELLS OF TRIP TO COUNTRY.

Clarksville, Tenn., Sept. 21.—Interest in the Gardner-Hunt murder trial continues to increase, and when court convened there were about 25 ladies and a long line of men standing in line for admission to the court room. Walter Hunt again took the stand. He thought the 200 shots heard were at Dowlen's, and from there he expected the night riders to come to Morrison's. Dowlen's is not on the main road to Morrison's.

Witness thought they were coming back to Morrison's to finish up the work. He would not have been surprised if they had gone to Crouch's also.

John Gardner, the other defendant, was called. He was at home sick on the night of the killing and about 9:30 he received a telephone message to come to the police station where he met Sory who told him he had been notified that a band of night riders was in the country and something ought to be done. He got his gun and overcoat from the factory and with Hunt got in Chief Robinson's buggy and drove to Will Crouch's. They heard shots toward Dowlen's, witness and Sory walked down about 200 yards in the field; when they went back Sory said: "We had better go up and protect Crouch's barn. We got in the buggy and when we got to the cross road Sory told me and Hunt to stop there."

After hitching the horse, witness took off a top rail and sat down and went to sleep.

**Describes Shooting.**

Hunt said to him, the night riders are coming. Witness then heard one say, "Hoss, keep your eyes open and your mouth shut."

Witness described the shooting as Hunt did, saying: "The front men got to my buggy and three men on foot came up to the fence, when one who led and then the one in the road said 'Let 'em have it.'"

"I then got up and turned in full view of them and fired at them. I was watching the three men on foot, expecting them to fire, when the firing was from the men in the road."

Witness said the men were all masked and wore white cloths. Witness declared that he fired five times and in self-defense, because he was fired on. Witness was shown three shells and picked out one of the kind he used that night. Witness described the visit of members of the party to the road, where they saw Vaughn Bennett and the dead horses. He said they had no purpose in firing into the crowd except self-defense.

They went out to attempt to arrest night riders.

**Acting as Officers.**

They understood Henry Cook was a regular officer and Sory represented Judge Tyler to keep peace in the county and arrest night riders. Witness was a sworn guard of the city.

Witness left the city after the affair on the advice of counsel, there being some feeling against him, and he was advised that if he did not look out he would be shot in the back or mangled. He said his attorneys said the association had taken up the matter to the road, where they saw Vaughn Bennett and the dead horses. He said they had no purpose in firing into the crowd except self-defense.

**THIRTY BAGS OF SALT A DAY.**

Citizens Need Thousands Groceries By the Wholesale.

Some idea of the magnitude of Hungling Brothers' World's Greatest Shows may be found in the fact that in a single day thirty bags of table salt are consumed in the canvas hotel. Other supplies are required daily in the following quantities: Two thousand pounds of meat, 150 gallons of coffee, sixty gallons of milk, 1,000 pounds of vegetables, 200 pounds of butter, 1,200 loaves of bread and 100 gallons of soup.

For the entire circus 50,000 gallons of water are used daily and the 650 horses and the several hundred menagerie animals require 100 bushels of oats, thirty tons of hay, ten tons of straw and fifteen bushels of bran. On the show grounds are three barber shops, a laundry, wagon and blacksmith shop, postoffice, tailor shop, dynamo and gas lighting plant, two general stores, dental parlor, harness shop and a library.

Nothing approaching the size and magnitude of this splendid enterprise has ever been attained by another circus. Their long special trains cover more than a mile of track, the main tent is the biggest ever constructed, the payroll number 1,250 people and the various tents cover twelve acres.

Everything about Hungling Brothers' circus is on a scale of magnificence not reached by other shows. The 375 performers are for the most part from Europe and Asia, the new parade was built in foreign studios and shops and the costumes of the parade and opening spectacle were made in Paris. It is the best dressed circus in the world as well as the biggest.

The entire performance will be given in Paducah on Wednesday, September 30, in every detail exactly as presented in all the large cities of America. The parade will be at 10 o'clock in the forenoon and there will be two performances, in each of which will be introduced the most daring and dangerous of all thrillers, the automobile double somersault of Miss La Belle Roche.

On show day reserved seats and admissions can be bought at Gilbert's drug store at exactly the same prices charged at the regular ticket wagon, thus accommodating those who wish to avoid the rush on the grounds.

# Harbour's MILLINERY OPENING

Thursday and Friday, September 24-25

THE grace and beauty of the Directoire period in France is the inspiration for much of the new MILLINERY this season.

Mrs. Harbour's exhibition is again as it has been for years—the most complete and beautiful presentation of new MILLINERY that is shown in Paducah. Her hats justify our enthusiasm; they will stir your enthusiasm.

This season hats are large, small, medium—every size. Shapes are dashing, or shapes are close and full of quiet dignity. Colors are rich but not gay; brilliant but wonders of tone blending. Descriptions, however, don't fairly describe.

Come Thursday or Friday and bring your friends to see these new beauties that the wizards of fashion have dreamed and wrought into reality for women's wear and men's admiration.

Priced here as no other store in Paducah can afford to price high class Millinery.

PETER PURYEAR,

Notary Public McCracken Co.

ANNOUNCEMENT.

County Court Clerk.

The Sun is authorized to announce

Wm. Smedley a candidate for re-

election to the office of Clerk of the

McCracken County Court subject to

the action of the Democratic party.

City Jailer.

The Sun is authorized to announce

Wade Brown a candidate for re-

election to the office of city jailer, sub-

ject to the action of the Republican

party.

Daily Thought.

Many a man makes a fool of him-

self by acting smart.

Harriman says a better feeling ex-

ists today toward the railroads. It is ev-

ident he has not been consulting the

people who used to ride on passes.

The Russian wheat crop is short

this year. Fortunately it is not cus-

tomary to send Russian farmers to

Siberia for failing to make their

wheat fields yield over thirty bushels

to the acre.

John Redmond thinks that Ireland

will have home rule within fifteen

years. Nearly all the world is hoping

that John is not a mere dreamer.

Ward Headley, Democratic candi-

date for presidential elector, vigor-

ously denies the charge that he in-

vestigated the Hopkinsville raid. Well,

sonny, who made the charge?

In practical statesmanship Mr.

Bryan has never completed even a

kindergarten course. It is asking

much of a big country like the United

States to trust itself to the spontane-

ous generation of self-proclaimed

genius.—St. Louis Globe-Democrat.

Mr. Hearst says it cost his New

York newspaper \$158,000 in de-

creased receipts to support Bryan

one month in the fall of 1896. That

is the way Bryanism works when it

hits business at any point except his

own lecture engagements.—St. Louis

Globe-Democrat.

BRYANITE FEDERALISM.

In that portion of his address to

the Virginia Republicans in which he

asserted the un-Jeffersonian charac-

ter of the present regime of the

Democratic party," Mr. Taft un-

masked a pretence of Bryanism

which is nothing less than an insult

to the intelligent Democrats of the

south. It is true, indeed, that the

southern Democrats recognized the

folly of perpetrating by their votes

the empty tradition that the party of

Bryan is the party of Jefferson. Mr.

Taft was justified by the facts in say-

ing that he doubted if Jefferson

would today recognize his reputed

political descendants," so rampant

are they for a strong centralization

of government. How right Mr. Taft

was in needing very extended study

of the Denver form to show.

Among other things which the Bry-

anized Democrats demands in the

platform, or to which it pledges itself

are these:

Regulation of business and indus-

trial concerns through manipulation

of the tariff schedule.

Federal licensing of interstate com-

merce (meaning thereby federal li-

censes for the bulk of the country's

business) to the extent of prohibitory

control plus the regulation of prices

of interstate commodities (meaning

thereby to fix the prices of practically

all commodities by governmental ac-

tion.)

So much more power for the inter-

state commerce commission than it

now has as to amount of the rail-

roads and telegraph and telephone

companies without any of the responsi-

bility of government ownership.

A government guarantee for na-

tional bank deposits which would

force all the state banks to become

national banks and practically estab-

lish a government bank of which all

the banks would be but branches.

Governmental regulation of in-

comes through federal taxation.

A federal government which will

see to it that every man "shall draw

from society a reward commensurate

with his contribution to society;" or,

as this declaration was meant to be

understood by a host of voters, that

every man gets the living which he

thinks the world owes him.

In view of the foregoing exhibit it

is evident that the declaration of bel-

ief in the Jeffersonian doctrine about

the relative spheres of the state and

federal governments and the avowal

of a Jeffersonian hostility to "cen-

tralization" with which the platform

inaugurates its sweeping schemes of

centralization are only soaps to the

large body of Democrats, especially

in the south, who have been clinging

to the tradition of Jeffersonian De-

mocracy without regard to the propa-

ganda of fact. If there were any

such thing as a two-sided public dis-

cussion of political questions in the

south Mr. Taft's speech of yesterday

would prove a stimulus to eye-open-

ing debate.—N. Y. Sun.

## LAST BRIDGE

TO BE BUILT IN COUNTY THIS YEAR COMPLETED.

Supervisor Will Turn Attention to Graveling Woodville Road for Ten Miles.

The sixth and last concrete bridge built by McCracken county this year will be given the finishing touches Friday after six weeks of steady labor. This bridge spans Bryant's ford on the Clark's river road and is 120 feet across, the longest concrete bridge in the county.

County Road Supervisor Bert Johnson, who has been personally superintending the building of every bridge, will then turn his attention to the graveling of the Woodville road from the end of the present stretch, which extends seven and one-half miles out from the city. Gravel will be spread for a distance of ten miles and when the work is finished there will be no further improvements this year.

Mr. Johnson has a gang working on the road at present and will rush the improvement as rapidly as possible. He is pleased with the six new concrete bridges, as well as all the county residents. The bridges will not necessitate repair as the old wooden bridges did and will last for years to come.

WALKS AWAY WITH JEWELRY.

Clever Servant, Girl Thief Takes Apron Full Before Eyes of Employer.

Philadelphia, Pa., Sept. 21.—Under the very eyes of her mistress, who suspected nothing, a clever servant girl thief walked out of the house of John E. Marsden, in West Philadelphia, with an apron full of jewelry valued at \$5,000.

Mrs. Marsden noticed the apron tied in a bundle under the girl's arm and asked her where she was going. She said she was going to post a letter. As the time passed and the girl did not appear, Mrs. Marsden went up stairs and examined the safe, finding that all the jewelry was gone. There is no clue to the whereabouts of the girl.

ILLINOIS SHERIFF HERE WITH PRISONER.

In case of Sheriff Litton, of Massac county, Ill., Howard Keel, a young man charged with grand larceny at Erlin, Tenn., was in the McCracken county jail from Saturday night until Sunday morning. Keel resided with his cousin, who died in Houston county, and it is said that \$165 was missing of his money. Keel was accused of taking it, and was locked in the county jail at Erlin. With two companions he broke jail and escaped. A short time ago he was located below Metropolis and Sheriff Litton arrested him and brought him to Paducah, where he was taken charge of by Deputy Sheriff C. D. French. Keel was returned to Tennessee yesterday.

RATHING, HER DRESS GONE.

So Girl Has to Go Home in Her Water Suit.

New York, Sept. 21.—Robbed of all her clothing, Miss Margaret Correll, of avenue C, Bayonne, was obliged to make her way home after midnight, clad only in her bathing suit. Unable to procure a bathing house, she had undressed in a clump of bushes and placed her clothing in a heap beneath a bush. Evidently had boys or tramps had watched her.

## Chapter XXII

THE PRISONER AT THE BUNGALOW.

"N Vienna, Friday."

"There should be great deeds, my dear Jules," And M. Du-

rand adjusted the bow of a smoking brass

lamp that hung suspended from the ceiling of a room of the inn, store and postoffice at Lamar.

"Meanwhile, this being but Wednes-

day, we have our work to do."

"Which is not so simple, after all, as one studies the situation. Mr. Armitage is here, quite within reach. We suspect him of being a person of disreputable."

He evaded unusual interest in a certain document that was once in your hands."

"Our own hands, if you would be accurate."

"You are captious. But, granted so, we must get them back. The postman is dwelling in a bungalow on the mountain side for greater convenience in watching events and wooing the lady of his heart's desire. We employed a clumsy clown to put him out of the world, but he did hard, and now we have got to get rid of him. But if he hasn't the papers on his clothes then you have this pleasant scheme for kidnapping him, getting him down to your steamer at Baltimore and cruising with him until he is ready to come to terms. The American air has done much for your imagination, my dear Jules, or possibly the altitude of the hills has overstimulated it."

"You are not the fool you look, my dear DuRand. You have actually taken on a fair grasp of the situation."

"But the adorable young lady, the fair Mlle. Catherine, what becomes of her in these transactions?"

"That is none of your affair," replied Chauvenet, frowning. "I am quite content with my progress. I have not finished in that matter."

"Neither. It would seem, has Mr. John Armitage. But I am quite well satisfied to leave it to you. In a few days we shall know much more than we do now. I should be happier if you were in charge in Vienna. A false step there—huh! I hesitate to think of the wretched mess there would be."

"Trust Winkler to do his full duty. You must not forget that the acute Stroebel now sleeps the long sleep and that many masses have already been said for the repose of his intrepid soul."

"The splendor of our undertaking is enough to draw his ghost from the grave. Tell by this time Zual should have filed our cablegram at the Springs and got your mail at the hotel. I hope you have not misplaced your confidence in the operator there. Coming back our plan must pass Armitage's house."

"Trust him to pass it. He'll encounter with Armitage have not been to his credit."

The two men were dressed in rough clothes, as for an outing, and in spite of the habitual ridding tone of their talk they wore a serious air. DuRand's eyes danced with excitement, and he twisted his mustache nervously. Chauvenet had gone to Washington to meet DuRand, to get from him news of the progress of the conspiracy in Vienna and, not least, to berate him for crossing the Atlantic. "I do not require watching, my dear DuRand," he had said.

"A man in love, dearest Jules, sometimes forgets." But they had gone into the Virginia hills amicably and were quartered with the postmaster. They waited now for Zual, whom they had sent to the Springs with a message and to get Chauvenet's mail. Armitage, they had learned, used the Lamar telegraph office, and they had decided to carry their business elsewhere.

While they waited in the bare upper room of the inn for Zual the big Serbian trumped up the mountain side with an aching head and a heart heavy with dread. "The horse he had left tied in a thicket when he plunged down through the California pine had broken free and run away, so that he must now trudge back foot to report to his masters. He had made a mess of his errands and nearly lost his life besides. The bullet from Oscar's revolver had cut a neat furrow in his scalp, which was growing sore and stiff as it ceased bleeding. He would undoubtedly be dealt with harshly by Chauvenet and DuRand, but he knew that the sooner he reported his calamities the better, so he stumbled toward Lamar, pausing at times to clasp his small head in his great hands. When he passed the wild tangle that hid Armitage's bungalow he paused and cursed the two occupants in his own dialect with a fierce, vile tongue. It was near midnight when he reached the tavern and climbed the rocky stairway to the room where the two men waited.

Chauvenet opened the door at his approach, and they cried aloud as the great figure appeared before them and the lamp light fell upon his dark, blood smeared face.

"The letters!" snapped Chauvenet.

"Is the message safe?" demanded DuRand.

## Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimonials. Dr. Pierce's Favorite Prescription has THE BADGE OF HONESTY on every bottle wrapper. In a full list of all its ingredients printed in plain English.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, disagreeable catarrhal, pelvic drain, dragging down distress in lower abdomen or pelvis, perhaps dark spots or specks dancing before the eyes, faint spells and kindred symptoms caused by female weakness, you can not do better than take Dr. Pierce's Favorite Prescription.

The hospital, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription" in such cases. Thereby the obnoxious examinations and painful treatments of the family physician can be avoided and a thorough course of successful treatment carried out in the privacy of the home. "Favorite Prescription" is composed of the very best native medicinal roots known to medical science for the cure of woman's peculiar ailments, contains no alcohol and no harmful or habit-forming drugs.

Do not expect too much from "Favorite Prescription." It will not perform miracles; it will not dissolve or cure tumors. No medicine will. It will do as much to establish vigorous health in most weaknesses and ailments peculiarly incident to women as any medicine can. It must be given a fair chance by perseverance in its use for a reasonable length of time.

You can afford to accept a superior remedy as a substitute for this remedy.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guided as secretly and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic. Easy to take as candy.

—Miss Marian Noble, of the High school faculty, has presented the primary department of the Washington building with a picture of "The Horse Fair," by Rosa Bonheur, the famous animal painter. The picture is an old copy and is a valued one.

—Mr. and Mrs. Russell Hughes, 944 Clay street, are the proud parents of a fine baby girl. Mr. Hughes is a fireman at the No. 3 fire station.

—Prentice Campbell, a colored employee of the Illinois Central railroad shops, dropped a heavy piece of iron on his left foot this morning. It was carried to the railroad hospital, where the injury was dressed.

—Wesley Burns, a young river man, was arrested Saturday night by Sergeant Goulet and Patrolmen Striatt and Franklin on a charge of petty larceny. It is alleged that he robbed Rudy Krebs of \$3.23. The trial was not called in police court this morning. Krebs was asleep and in his other pocket had a roll of \$37 which was untouched. For the thief feared to roll over his victim.

—While cutting corn Saturday afternoon Will Vandeveld, of 824 Buchanan avenue, accidentally cut a deep gash in his left hand between the thumb and forefinger. Dr. H. P. Williamson dressed the injury. The boy will be disabled for some time.

**Pretty Autumn Party.**  
In honor of Mrs. Charles Russell, of Kansas City, the guest of her aunt, Mrs. Thomas Sisson, the Misses Ella and Anna Larkin entertained at cards Saturday afternoon at their home, 408 South Sixth street.

It was the first autumn party and the parlors were decorated with goldenrod and a colored scheme of orange and green was carried out. English Ivy was used in the decorations.

There were three tables and after the prizes were distributed a dainty two-course luncheon was served. The first prize, a velvet pin, went to Mrs. Fred Acker, while the consolation prize, an ornament, was captured by Mrs. Herman Kowalski. The visitors' prize, a belt buckle, was presented to Mrs. Dreese.

**Invitations Received.**  
A number of the younger society folk have received invitations to attend the fair ball next Thursday evening in Mayfield. The ball is an annual one, and is given every year during the races. A number of Paducah couples probably will leave at 6:10 o'clock and return at 1:28 o'clock Friday morning. The ball will be given at the Elks' hall.

Mr. John W. Keller returned yesterday from a trip to Texas. Mr. and Mrs. William McMahon, of 521 South Fourth street, and Mrs. B. D. White, of Nashville, returned yesterday after a visit to friends and relatives at Sheridan, Ky.

**County Court.**  
The Billings-Warner company filed articles of incorporation, capitalizing at \$20,000. A general printing business will be done. The stockholders are B. J. Billings, 97 shares, K. M. Billings 3 shares, and George Warner 100 shares.

R. W. Rudolph and Alice Rudolph were ruled to appear on September 25 and show cause why they should not be fined for contempt of court and why they will not surrender the estate of D. E. Holt to the administrator for administration.

Laura Taylor who recently sued Young Taylor for divorce, filed a notice of liens on the following property of the defendant: Lot on Ohio street, house and lot on Ohio street, two houses in Worthington, addition property on the Hinkleville road 1/4 miles from town.

The Globe Bank and Trust company filed a notice of liens on property of T. J. Atkins, et al., as follows: Property at Sixth and Madison, South Sixth street, east side of Fourth street between Broadway and Jefferson, and on Eighth street between Monroe and Madison streets.

**Marriage Licenses.**  
Ed Hall and Nora Hanes.

**FOOT BALL.**  
The Paducah Athletic club put out a fine squad of men in Saturday afternoon's practice. There were about 20 men donned the moleskins and warmed up on falling on the ball and passing the pig skin.

Dr. Jesse Gilbert was elected as manager of the team and Roscoe Reed and Grover Burns were elected as the coaches.

Coach Reed declared that the P. A. C. had the toughest bunch of players he ever ran up against.

Practice will begin tonight at Bridge and Clements street in regular football style. The team will average about 165 pounds, which means there will be something doing on the gridiron for Paducah sports.

The P. A. C. will play their first game October 3 with the local high school team. New suits have been ordered for the P. A. C. team and they will be here next Saturday.

Some of the material trying out for places are: Clarence Viger, c. Joe Tucker, g. b.; Bob Winger, c. b.; Will Dunbar, t. b.; Captain Les Jones, f. b.; Claude Reeder, r. e.; Oran Bell, l. e. Other candidates are: Charles Bower, Tom Cashey, Gus Carterjohn, Lige Harbour, Elmer Collins, Dutch Crouch, Red Polk, Charlie Brian and T. Burns.

The Chess, Checker and Whist club had about 20 men out for Saturday's practice and a warning up was given the candidates. A coach for the C. C. and W. team will be selected some time this week and then regular practice will be taken up in "dead earnest."

**Football Kicks.**  
They say that Shannon, the new C. C. and W. man, can kick the ball the whole length of the field if he is pushed to it.

In whispers: Say, Bean, if you won't hit me hard, I'll return the compliment.

No, father, I'm not playing football this year.

Robbie Fitzpatrick, the swift end, says he can take the ball and outdistance the Wright brothers. If the president was watching him.

Robbie Fisher, Fitzpatrick and Bower all claim that nothing will be able to head them off once they get started down the field.

Amos Rhodes while practicing Saturday afternoon, became very seasick from watching the ball soar through the clouds. Several amateur doctors attended him and put him back in the aeriumage.

All physicians who anticipate grafting skin this fall will kindly send in their names, as several players have plenty for sale, shown from the way they scraped it off the knees and elbows in the Saturday's practice.

Coach Reed, of the Paducah Athletics, is whipping his men into shape with crowbars and picks.

The C. C. and W. club colors are maroon and white. By the way, can you make anything rhyme with C. C. and W.? The clubbies contemplate changing their name because the appointed "hookers" are unable to write lyrics for the benefit of the young lady admirers of the team.

The Alexander club, of Cairo, has organized a team to "mop up" with Paducah this year and offset the defeat here last Thanksgiving.

They have given the C. C. and W. a direful challenge, which will be accepted. Help the team out: It is the only branch of athletics in Paducah.

**BOOT AND SHOE MEN PROTEST.**  
Manufacturers Oppose New Packing Rule of the Western Lines.  
Chicago, Sept. 21.—Boot and shoe manufacturers are up in arms over a new rule of western railroads which under present conditions means an increase of 50 per cent in freight rates on their product. A storm of protest has been caused, with the result that the railroads have consented to a conference with the manufacturers this week to adjust the difficulty. The new requirement is that manufacturers must use cement coated nails in boxes containing shipments of boots and shoes or be subject to a 50 per cent increase in the first-class rate. The rule was adopted at the last meeting of the western classification committee and becomes effective January 1.

Manufacturers object seriously to using cement-coated nails unless a reduction is made in the rate. So tenacious are the nails that a box must be backed to pieces in order to open it, thus preventing its further use. The railroads defend their action by saying that with the possible exception of whisky, no other article is so frequently stolen from boxes in transit as boots and shoes. Damage claims are showered upon the railroads for the missing articles.

**MR. TIFT'S POLITICAL DESTRUCTIVE**  
Mr. Tift's Political Destructive and Democratic Platforms.

(From Mr. Tift's Speech of Acceptance)

The chief difference between the Republican and the Democratic platforms is the difference which has heretofore been seen between the policies of Mr. Roosevelt and those which have been advocated by the Democratic candidate. Mr. Bryan, Mr. Roosevelt's policies have been progressive and regulative; Mr. Tift's destructive. Mr. Roosevelt has favored regulation of the business in which evils have grown up so as to stamp out the evils and permit the business to continue. The tendency of Mr. Bryan's proposals has generally been destructive of the business with respect to which he is demanding reform. Mr. Roosevelt would compel the trusts to conduct their business in a lawful manner and secure the benefits of their operation to the masses of the people.

## CIRCULATION, ONLY GUARDED BY FUND

**Trial in N. Y. Shows Deposits Cannot be Included in Scheme.**

Raymond Says Bryan's Plan Will Lead to Hecksch's Handling of People's Money.

USE FOR IDEA IS ENDED

New York, Sept. 21. I already have given a history of the early stages of New York's experience with the safety fund idea as applied to the local banks, says Raymond, of the Chicago Tribune. As previously explained, the safety fund worked all right so long as the people understood it was to be applied to the protection of circulation only. When it was discovered the law was so worded as to make the fund applicable to the payment of all the debts of a bank the crash came rapidly, because it was evident there could be no supervision of general debts as of circulation and no fund ever devised would stand the strain of being made liable to pay the speculative debts of reckless or illegal banking.

All the authorities agree that if the fund had been drawn upon only for the redemption of circulation it would have been amply sufficient for that purpose. As soon as it was found the fund could be used to pay off deposits and floating debts a disastrous credit was conferred upon the banks which had been chartered by the state in this way. Unscrupulous men were quick to see this fact and make banks contracted debts for their own profit, secure in the understanding that the general fund would have to make good.

**Room Done; Cure Advanced.**  
By 1842 the state found it necessary to pass a law devoting the safety fund exclusively to the redemption of circulating notes, but the mischief already had been done. Within six months previous to the passage of this law six banks had failed with a circulation of \$1,108,000. The fund was used for that purpose, but the creditors of these banks immediately secured injunctions from the courts preventing any payment from the fund to redeem the circulation of banks which subsequently became insolvent until all the debts of the banks which had failed up to that time had been paid.

In many of the failures it developed that there had been issues of notes largely in excess of the amount allowed by law, and of course the general liabilities were even more burdensome.

In 1845 Controller Platts showed that the amount required to pay the debts of the insolvent banks was \$1,617,000. There was at that time in the fund only \$179,192, leaving the amount to be provided for \$1,437,807. There already had been paid from the safety fund \$1,502,170, and this, with the further amount of \$1,017,000 estimated to be due, made a total charge on the fund by the failure of ten banks of \$2,519,170.

**Could Guard Only Circulation.**  
Up to September 20, 1845, the total contributions to the fund were \$1,885,336 and the redemption of notes was \$1,769,922, showing the fund to have been amply secured for the circulation of the insolvent banks if it had not been made to bear the burden of providing for their deposits also.

In that same year it became necessary for the state to issue its own securities in the amount of nearly a million dollars for the purpose of paying off the debts of the insolvent banks. The issue of state bonds was made a lien upon the safety fund itself and it so continued until the whole thing was swept out of existence at the time of the war.

After the law had been passed limiting the liability of the fund to circulation only and after that circulation had been put into the hands of state officials, who could regulate its issue, most of the evils of the safety fund disappeared, this showing conclusively that it was the attempt to guarantee deposits which caused all the trouble.

As all of the future contributions to the safety fund were mortgaged to meet the state stock issued in payment of the debts of the banks which had failed before the crash in 1842, in case of additional failure there could be no resort to the fund, and it finally came about that the circulation of the safety fund banks, amounting to \$16,926,918, rested solely on the solvency of the bank making the issue.

**Failures Were Out Fund.**  
Millard Filmore, who was controller in 1848, said the safety fund itself had long before been exhausted and future contributions to it mortgaged by the issue under the act of 1845 of \$900,828 of 6 per cent state bonds, with which the debts of the insolvent banks in excess of the fund had been paid.

Since 1826, the contributions to the fund had been \$1,876,062, and the circulation redeemed was \$1,548,558, leaving a surplus of \$327,504 which, with the amount obtained for the 6 per cent state stock, had been swallowed up to meet other debts of the institutions.

In this way the safety fund dragged along until 1866, when contributions had been sufficient to wipe out the debts of the state and a small surplus of \$13,000 was put in the

# For Inflammation

## Ladies

who suffer from inflammation of the womanly organs, should be careful that they do not allow the inflammation to spread, or take fast hold, since serious disease might result, requiring, possibly, an operation. Pain is one of the first signs of inflammation, and when it remains constant, in the back, side, hips, head, or comes back every month, your trouble is nearly certain to be inflammation, and needs prompt treatment, with Wine of Cardui.

The great popular success of Cardui, during the past half century, tells volumes as to its merit for

female complaints. Thousands of letters are received, telling of its curative powers. See the following, from Mrs. Mabel Hasenbarger, of Larkin, Kas.

"Before I took Cardui I suffered greatly with inflammation. It worked on me for some years, but hadn't bothered me much, till after my marriage, when it caused me two mishaps. After that, Cardui helped me so much and I am so thankful."

## TIFT'S KINDNESS TO BLIND.

Overrules Washington Monument Regulation For Benefit of the Sightless.

The kind heartedness of Mr. Tift and his sincere common sense sympathy with the unfortunate in this world has just been brought to the attention of the blind in a peculiar way.

Away up in the top of the Washington monument, where thousands go to behold the beauties of the nation's capital, the Columbia Polytechnic Institute, which seeks to make it possible for the adult blind of the United States to rise above conditions of dependence by becoming self-sustaining, placed on sale souvenir post cards manufactured by its blind. Some sentimental persons took the view that this was undignified and succeeded in having the superintendent of public buildings and grounds order the cards removed. Mr. E. Cleveland, principal of the institute, appealed to Mr. Tift, then secretary of war and within whose jurisdiction came the office of public buildings and grounds. It took only a few words to convince the secretary that the blind should have the benefit of this privilege, and the cards were again placed on sale in the monument.

"For this action," said Principal Cleveland in discussing the incident, "Mr. Tift deserves the gratitude of every blind person, particularly the progressive blind, who are striving to help their less fortunate fellows."

## The Remedy That Does.

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. H. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at all druggists, 50c and \$1.00. Trial bottle free.

## Union Labor Vote.

Hon. William H. Richardson is one of the leading union men of western New York and in 1897 was the Democratic candidate for assemblyman in Chenango county. This is what he has to say of the effort of Mr. Clegg to win the labor vote over to Mr. Bryan. "I am a union labor man, and I want to see further that no man can carry the labor vote into the Democratic camp. I know how union labor men feel in this city, and three-fourths of them will stand by the Republican party because only in that way have they the assurance of freedom from the business disturbance that Mr. Bryan promises for at least four years if he can be elected. We workmen can't earn wages if statesmen are put in office to disturb business and make trouble."

## Best the World Affords.

"It gives me unbounded pleasure to recommend Bucklen's Arnica Salve," says J. W. Jenkins, of Chapel Hill, N. C. "I am convinced it's the best salve the world affords. It cured a burn on my thumb, and I never fail to heal every sore, burn or wound in which it is applied. 25c. at all druggists."

## Naturally Acquired.

"I suppose you consider my haunter more affectionate," began Miss Parvener. "Not at all," Miss Bright hastened to say. "Your scornful expression is quite natural."

"Yes, I suppose you lived for a great many years in the neighborhood of your father's glue factory," Philadelphia Press.

## Just Exactly Right.

"I have used Dr. King's New Life Pills for several years, and find them just exactly right," says Mr. A. A. Felton, of Harrisville, N. Y. "New Life Pills relieve without the least discomfort. Best remedy for constipation, biliousness and malaria. 25c. at all druggists."

## BYRAN'S POLITICAL DESTRUCTIVE

Mr. Taff Comrades Reudition and Democratic Platforms.

(From Mr. Taff's Speech of Acceptance.)

The chief difference between the Republican and the Democratic platforms is the difference which has heretofore been seen between the policies of Mr. Roosevelt and those which have been advocated by the Democratic candidate. Mr. Bryan, Mr. Roosevelt's policies have been progressive and regulative; Mr. Bryan's destructive. Mr. Roosevelt has favored regulation of the business in which evils have grown up so as to stamp out the evils and permit the business to continue. The tendency of Mr. Bryan's proposals has generally been destructive of the business with respect to which he is demanding reform. Mr. Roosevelt would compel the trusts to conduct their business in a lawful manner and secure the benefits of their operation and the maintenance of the prosper-

ity of the country of which they are an important part; while Mr. Bryan would extirpate and destroy the business in order to stamp out the evils which they have practiced.

# CIRCULATION, ONLY GUARDED BY FUND

Trial in N. Y. Shows Deposits Cannot be Included in Scheme.

Raymond Says Bryan's Plan Will Lead to Reckless Handling of People's Money.

## USE FOR IDEA IS ENDED

New York, Sept. 21.—I already have given a history of the early stages of New York's experience with the safety fund idea as applied to the local banks, says Raymond, of the Chicago Tribune. As previously explained, the safety fund worked all right so long as the people understood it was to be applied to the protection of circulation only. When it was discovered the law was so worded as to make the fund applicable to the payment of all the debts of a bank the crash came rapidly, because it was evident there could be no such supervision of general debts as of circulation and no fund ever devised would stand the strain of being made liable to pay the speculative debts of reckless or illegal banking.

All the authorities agree that if the fund had been drawn upon only for the redemption of circulation it would have been amply sufficient for that purpose. As soon as it was found the fund could be used to pay off deposits and floating debts a disastrous credit was conferred upon the banks which had been chartered by the state in this way. Unscrupulous men were quick to see this fact and many bankers contracted debts for their own profit, secure in the understanding that the general fund would have to make good.

## Harm Done; Cure Advanced.

In 1842 the state found it necessary to pass a law devoting the safety fund exclusively to the redemption of circulating notes, but the mischief already had been done. Within six months previous to the passage of this law six banks had failed with a circulation of \$1,198,847. The fund was good for that, but the creditors of these banks immediately secured injunctions from the courts preventing any payment from the fund to redeem the circulation of banks which subsequently became insolvent until all the debts of a bank which had failed up to that time had been paid.

In many of the failures it developed that there had been issues of notes largely in excess of the amount fixed by law, and of course the general liabilities were even more burdensome.

In 1845 Controller Flagg showed that the amount required to pay the debts of the insolvent banks was \$1,017,000. There was at that time in the fund only \$179,193, leaving the amount to be provided for \$837,807. There already had been paid from the safety fund \$1,502,170, and this, with the further amount of \$1,017,000 estimated to be due, made a total charge on the fund by the failure of ten banks of \$2,519,170.

## Could Guard Only Circulation.

Up to September 30, 1845, the total contributions to the fund were \$1,885,536 and the redemption of notes were \$1,769,922, showing the fund to have been ample security for the circulation of the insolvent banks if it had not been made to bear the burden of providing for their deposits also.

In that same year it became necessary for the state to issue its own securities to the amount of nearly a million dollars for the purpose of paying off the debts of the insolvent banks. The issue of state bonds was made a lien upon the safety fund itself and so continued until the whole thing was swept out of existence at the time of the war.

After the law had been passed limiting the liability of the fund to circulation only and after that circulation had been put into the hands of state officials, who could regulate its issue, most of the evils of the safety fund disappeared, thus showing conclusively that it was the attempt to guarantee deposits which caused all the trouble.

As all of the future contributions to the safety fund were mortgaged to meet the state stock issued in payment of the debts of the banks which had failed before the crash in 1842, in case of additional failure there could be no resort to the fund, and it finally came about that the circulation of the safety fund banks, amounting to \$16,026,918, rested solely on the solvency of the bank making the issue.

## Failures Wipe Out Fund.

Millard Plummer, who was controller in 1848, said the safety fund itself had long before been exhausted and future contributions to it mortgaged by the issue under the act of 1845 of \$300,000 of 6 per cent state bonds, with which the debts of the insolvent banks in excess of the fund had been paid.

Since 1826, the contributions to the fund had been \$1,876,062, and the circulation redeemed was \$1,548,358, leaving a surplus of \$327,704, which, with the amount obtained for the 6 per cent state stock, had been allowed up to meet other debts of the institutions.

In this way the safety fund dragged along until 1846, when contributions had been sufficient to wipe out the debts of the state and a small surplus of \$13,000 was put in the

It's giving a little thought to the question of what we ought and ought not to eat, we can make things much more pleasant for ourselves and others.

"Some time ago I was in the habit of eating buckwheat cakes, sausage, fried potatoes and coffee for breakfast," writes a N. Y. lady.

"I was troubled with headache and indigestion, but thought medicine would relieve me. Finally I saw my mistake and made up my mind that the cause of my trouble was in the food I was eating."

"About this time I saw Grape-Nuts mentioned in our paper, and I began to eat it with cream for breakfast and to drink Postum instead of coffee."

Opening Day Sept. 21st

TRY BEFORE YOU BUY

Closing Day Sept. 26th

COMMENCING Monday, September 21st, and ending Saturday, September 26th, we inaugurate a Cooking Exhibit and Demonstration which will be alive with interest for housewives who appreciate fuel economy and convenience in a range. Come and see how easy it is to handle; how little fuel it uses; what delicious biscuit it bakes. The range used for demonstration purposes will have only a paper smoke pipe, proving conclusively that all the heat stays in the range and is utilized in cooking. A visit to this demonstration is bound to impress you, but the best way to test a stove after all is to use it. To show the implicit confidence we have in the **20th Century Steel Laurel Range** we will place one in your home **Free of Charge** and let you try it till you are satisfied that it will do all we claim for it. If you are dissatisfied with it, we will bring it back to the store without any cost to you whatsoever. Isn't that offer fair enough to try? We believe you will agree that it is, especially after you see the range work in the demonstration.

We are going to show just what can be done

## 20th CENTURY STEEL LAUREL RANGE

### Why Laurel Ranges Are Best and Cheapest

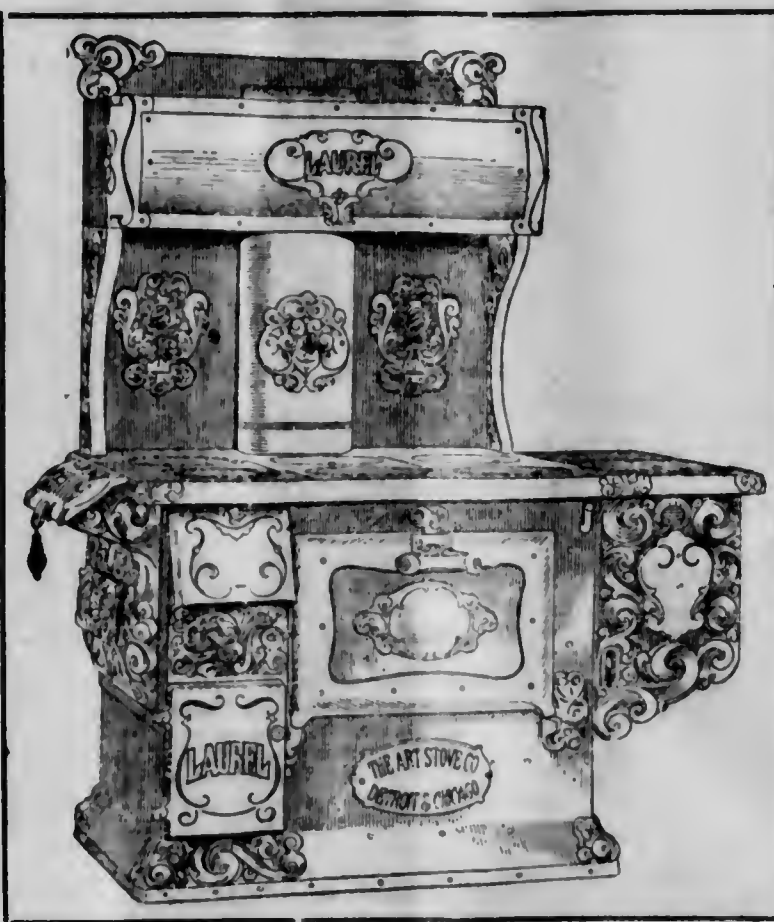

They have the famous Laurel two-flue construction which heats the covers of the top instead of the usual two. It insures even heating of the oven bottom, making it a perfect baker and absolutely preventing warping.

Oven top plate is filled with fire-proof cement which makes it last forever and insures even baking on the oven shelf.

The body is made up of two 3/4 inch planished steel plates, with 1/4 inch asbestos filling between, thus retaining all the heat and making it available for cooking.

Has the famous pouch feed door, which insures perfect distribution of the fuel on the grates, and thorough combustion of every ounce of fuel.

Because no other stove or range on the market today has these and many other meritorious features. They mean money saved for you.

"The Only Real Way to Test a Stove is to Use It"

We will show you what a Fuel Saver this Range is, how biscuits can be baked, using only a paper smoke pipe and how strongly it is made.

This will be the most practical Cooking Exhibit ever made.

### REMEMBER

During this reception, if you purchase one of these Ranges, you will be presented with a handsome set of

### Henry Clews Weekly Banking Letter.

New York, Sept. 21. The recent reaction of the market was not entirely unexpected. Prices had undergone a prolonged and too violent advance. In the leading shares practically all the panic losses had been wiped out, and in many instances prices were not only the highest since May, 1907, but the highest on record, and had risen fully 20 to 25 points and over in the first eight months of 1914. The time, therefore, was ripe for reaction, and only waited upon the turn of events. The big holders had been quietly realizing,

and while only partially successful in disposing of their surplus holdings, apparently recognized that the advance had been pushed as far as possible for the time being. This change in attitude of the speculative leaders was, in fact, quite marked. Unnecessary stress was laid upon the political situation, and though there was nothing disturbing in this respect still it suited some of the leaders to take pessimistic political views, probably because a bearish demonstration against stocks would check political apathy and be a good market maneuver at the same time.

But quite apart from these motives the market was unquestionably too high; the advance had been too rapid and had overdiscounted the return of prosperity, especially as the latter had not by any means equalled expectations. In one very important respect hopes have not been fully realized, and this is in regard to crops, the early estimates of cotton, corn and wheat having all been materially reduced by crop deterioration. At one time the promise was for a corn crop of 2,726,000,000 bushels and 730,000,000 bushels of wheat. The last government reports, however, indicated a yield of 2,596,000,000 bushels of corn and only 666,000,000 bushels of wheat. Both crops are likely to exceed last year, yet a reduction of 130,000,000 bushels in estimates of corn and 60,000,000 in wheat must exert some effort upon values in general. When grain advances stocks often decline. The cotton crop has also suffered some reduction in the earlier calculations of yield, and the sharp decline in this great staple, which is selling nearly 3 cents below last year, must compel a modification of the unreasonable optimism which prevailed in some quarters. On the other hand, prices for wheat and corn are profitable and likely to be well sustained, since the world's supply of cereals is relatively short and there is sure to be a good foreign demand for all we have to spare. All this means high prices and prosperity to the western farmer, who will smile complacently as the eastern consumer unwillingly pays his bill for nearly all food products. The southern planter, however, is less favored, because his crop is not likely to be as large as ex-

pected; yet he will be compelled to accept low prices owing to the depressed condition of the cotton industry abroad and at home. Facts such as these cannot be ignored and will necessitate some discrimination in the purchase of stocks, notwithstanding that the money value of our crops as a whole will be much larger than a year ago.

Another factor in checking the rise in stocks was a turn in the money market. Call loan rates have been slightly higher and the demand for currency from the interior tends to check the accumulation of funds at this center. The strength of foreign exchange and rumors of gold exports also had a slightly depressing effect. Nevertheless there is nothing in the monetary situation to cause uneasiness. We could readily spare a few millions to Europe to assist a Russian loan or any other legitimate transaction, and a stiffening of local money rates would really be beneficial if it discouraged excessive and unhealthy speculation. The present great dearth of money is chiefly due to business inertia and must be considered a symptom of debility rather than of good health; so that dealer money provided it resulted from a better mercantile demand, is an end devoutly desired just now and would be far preferable to an abnormal case which fosters nothing but dangerous inflation. It is very significant that the clearing house banks of this city now report loans of \$1,326,000,000. An increase of \$250,000,000 in less than twelve months at a time of business depression is highly suggestive, for it proves that cheap money has been utilized for stock market manipulation rather than for legitimate commercial or industrial purposes. Here is inflation pure and simple, aggravated by an expansion in circulation when the latter would be contracting if we had a modern currency system.

August foreign commerce returns were disappointing in some respects. Total imports amounted to only \$91,250,000, a decrease of \$34,500,000 compared with last year. Exports reached about \$110,400,000, a loss of \$16,800,000. These figures forcibly illustrate our impaired purchasing powers, yet they are not with our compensations. In the first place they leave us with an excess of exports amounting to \$19,150,000, against \$1,460,000 in 1907, and show that we are strengthening our credit

abroad. They also show that we are steadily recovering from depression, since both exports and imports in August showed much larger gains over July than in 1907. Moreover, there is nothing in these returns likely to encourage gold exports, which if they come will be due to special and not regular influences. Europe has been a seller of our securities, but not to an extent sufficient to warrant the present dearth of foreign exchange; and should the market decline sufficiently is likely to become a buyer.

The general outlook of the market cannot be called satisfactory, the tendency seemingly being towards lower prices. Hardly stated the situation is this: After a rise lasting several months, which overdiscounted all possible business recovery, a reaction was due. The panic has been more severe in its effects, especially upon the railroads, than was expected. General business, though improving, has not rallied as promptly or as fully as was expected; nor have the crops met early calculations, even though they turn out better than last year. It becomes necessary, therefore, to modify extravagant expectations which had so much to do with the spring and summer rise. It must also be remembered that this phenomenal advance would have been absolutely impossible but for abnormally cheap money, which meant dear stocks and inflation for which there is usually a penalty some day. Again we are now in the height of a presidential campaign; and though there is nothing seriously disturbing in the present contest it affords no material on which to prolong the late bull market. The tariff is sure to be a subject of active discussion and that is not quieting to business interests. Besides uncertainty is always unsettling and it may be good politics to give the market a scare, which can be readily and profitably done if it happens to coincide with the plans of the chief market manipulators. For some time to come both prudence and discrimination will be necessary in the buying of stocks; fluctuations, however, will be wide and frequent until after the election, thereby making it a good, quick trading market.

# COOKING EXHIBIT

Opening Day Sept. 21st

TRY BEFORE YOU BUY

Closing Day Sept. 26th

COMMENCING Monday, September 21st, and ending Saturday, September 26th, we inaugurate a Cooking Exhibit and Demonstration which will be alive with interest for housewives who appreciate fuel economy and convenience in a range. Come and see how easy it is to handle; how little fuel it uses; what delicious biscuit it bakes. The range used for demonstration purposes will have only a paper smoke pipe, proving conclusively that all the heat stays in the range and is utilized in cooking. A visit to this demonstration is bound to impress you, but the best way to test a stove after all is to use it. To show the implicit confidence we have in the **20th Century Steel Laurel Range** we will place one in your home **Free of Charge** and let you try it till you are satisfied that it will do all we claim for it. If you are dissatisfied with it, we will bring it back to the store without any cost to you whatsoever. Isn't that offer fair enough to try? We believe you will agree that it is, especially after you see the range work in the demonstration.

We are going to show just what can be done  
with the splendid

## 20th CENTURY STEEL LAUREL RANGE

### Why Laurel Ranges Are Best and Cheapest

They have the famous Laurel two-flue construction which heats the covers of the top instead of the usual two. It insures even heating of the oven bottom, making it a perfect baker and absolutely preventing warping.

Oven top plate is filled with fire-proof cement which makes it last forever and insures even baking on the oven shelf.

The body is made up of two 3/4 inch planished steel plates, with 1/4 inch asbestos filling between, thus retaining all the heat and making it available for cooking.

Has the famous punch feed door, which insures perfect distribution of the fuel on the grates, and thorough combustion of every ounce of fuel.

Because no other stove or range on the market today has these and many other meritorious features. They mean money saved for you.

"The Only Real Way to Test a Stove is to Use It"

We will show you what a Fuel Saver this Range is, how biscuits can be baked, using only a paper smoke pipe and how strongly it is made. This will be the most practical Cooking Exhibit ever made.

### REMEMBER

During this reception, if you purchase one of these ranges, you will be presented with a handsome set of

### Henry Clews Weekly Banking Letter.

New York, Sept. 21.—The recent reaction of the market was not entirely unexpected. Prices had undergone a prolonged and too violent advance, in the leading shares practically all the gains had been wiped out, and in many instances prices were not only the highest since May, 1907, but the highest on record, and had risen fully 20 to 25 points and over in the first eight months of 1908. The time, therefore, was ripe for reaction, and only waited upon the turn of events. The big holders had been quietly realiz-

ing, and while only partially successful in disposing of their surplus holdings, apparently recognized that the advance had been pushed as far as possible for the time being. This change in attitude of the speculative leaders was, in fact, quite marked. Unnecessary stress was laid upon the political situation, and though there was nothing disturbing in this respect still it acted as a check upon the speculative spirit. The market was probably because a bearish demonstration against stocks would check political apathy and be a good market maneuver at the same time.

But quite apart from these motives the market was unquestionably too high; the advance had been too rapid and had overdone the return of prosperity, especially as the latter had not by any means equalled expectations. In one very important respect hopes have not been fully realized, and this is in regard to crops, the early estimates of cotton, corn and wheat having all been materially reduced by crop deterioration. At one time the promise was for a corn crop of 2,726,000,000 bushels and 730,000,000 bushels of wheat. The last government reports, however, indicated a yield of 2,596,000,000 bushels of corn and only 666,000,000 bushels of wheat. Both crops are likely to exceed last year, yet a reduction of 130,000,000 bushels in estimates of corn and 600,000,000 in wheat must exert some effort upon values in general. When grain advances stocks often decline. The cotton crop has also suffered some reduction in the earlier calculations of yield, and the sharp decline in this great staple, which is selling nearly 2 cents below last year, must compel a modification of the unreasonable optimism which prevailed in some quarters. On the other hand, prices for wheat and corn are profitable and likely to be well sustained, since the world's supply of cereals is relatively short and there is sure to be a good foreign demand for all we have to offer. All this means high prices for the farmer, and the western farmer, who will smile complacently as the eastern consumer unwillingly pays high prices for nearly all food products. The southern planter, however, is less favored, because his crop is not likely to be as large as ex-

pected; yet he will be compelled to accept low prices owing to the depressed condition of the cotton industry abroad and at home. Facts such as these cannot be ignored and will necessitate some disinclination in the purchase of stocks, notwithstanding that the money value of our crops as a whole will be much larger than a year ago.

Another factor in checking the rise in stocks was a turn in the money market. Call rates have been slightly higher, and the demand for currency from the interior tends to check the accumulation of funds at this center. The strength of foreign exchange and rumors of gold exports also had a slightly depressing effect. Nevertheless there is nothing in the monetary situation to cause uneasiness. We could readily spare a few millions to Europe to assist a Russian loan or any other legitimate transaction, and a stiffening of local money rates would really be beneficial if it discouraged excessive and unhealthy speculation. The present great ease in money is chiefly due to business inertia and must be considered a symptom of debility rather than of good health; so that dearer money, provided it resulted from a better ascertainable demand, is an end devoutly desired just now and would be far preferable to an abnormal ease which fosters nothing but dangerous inflation. It is very significant that the clearing house banks of this city now report loans of \$1,326,000,000. An increase of \$250,000,000 in less than twelve months at a time of business depression is highly suggestive, for it proves that cheap money has been utilized for stock market manipulation rather than for legitimate commercial or industrial purposes. There is inflation pure and simple, aggravated by an expansion in circulation when the latter would be contracting if we had a modern currency system.

August foreign commerce returns were disappointing in some respects. Total imports amounted to only \$21,250,000, a decrease of \$34,500,000 compared with last year. Exports reached about \$110,400,000, a loss of \$16,800,000. These figures forcibly illustrate our impaired purchasing powers, yet they are not without their compensations. In the first place they leave us with an excess of exports amounting to \$19,150,000, against \$1,160,000 in 1907, and show that we are strengthening our credit

abroad. They also show that we are steadily recovering from depression, since both exports and imports in August showed much larger gains over July than in 1907. Moreover, there is nothing in these returns likely to encourage gold exports, which if they come will be due to special and not regular influences. Europe has been a seller of our securities, but not to an extent sufficient to warrant the present firmness of foreign exchange; and should the market decline sufficiently is likely to become a buyer.

The general outlook of the market cannot be called satisfactory, the tendency seemingly being towards lower prices. Briefly stated the situation is this: After a rise lasting several months, which overdone all possible business recovery, a reaction was due. The people have been more severe in its effects, especially upon the railroads, than was expected. General business, though improving, has not rallied as promptly or as fully as was expected; nor have the crops met early calculations, even though they turn out better than last year. It becomes necessary, therefore, to modify extravagant expectations which had so much to do with the spring and summer rise. It must also be remembered that this phenomenal advance would have been absolutely impossible but for abnormally cheap money, which meant dear stocks and inflation for which there is usually a penalty some day. Again we are now in the height of a presidential campaign; and though there is nothing seriously disturbing in the present context it affords no material on which to prolong the late bull market. The tariff is sure to be a subject of active discussion and that is not quieting to business interests. Besides uncertainty is always unsettling and it may be good politics to give the market a scare, which can be readily and profitably done if it happens to coincide with the plans of the chief market manipulators. For some time to come both prudence and disinclination will be necessary in the buying of stocks; fluctuations, however, will be wide and frequent until after the election, thereby making it a good, quick trading market.

## TOBACCO RALLY WAS POLITICAL MEETING

Noted Democrats Speak to 10,000 at Princeton.

Ward Hendley Denounces Ruler That He Investigated the Rall on Hopkinsville.

SMALL CLASH WITH SOLDIERS

Princeton, Ky., Sept. 21.—More than 10,000 people heard Congressman Ollie James, former Congressman John S. Rhea, Ward Hendley, of Princeton; Joel H. Port and Felix G. Ewing, of Tennessee, friends and officials of the Dark Tobacco Growers' association, speak here Saturday supposedly in the interest of the tobacco growers' association, but the meeting was in reality a political meeting, the speakers covertly pleading the cause of the Democratic ticket. Men and women who have been prominently identified in the night rider movement were in the forefront in the parade which preceded the speaking.

The town is again attired, all of the stores, banks and public buildings being handsomely decorated. All the nearby towns unloaded their population on Princeton.

Front Farmersville and community a delegation of 30 horsemen arrived at 9 o'clock. Lyon county sent a delegation of more than 200 headed by a brass band, while Trigg county sent 600 marchers.

More than 3,000 marchers participated in the parade, which was headed by Mrs. John Hollowell, the wife of the chief defendant in the suit tried in the federal court at Paducah in which his relatives secured a heavy verdict for alleged night riding.

Bradley Wilson, of Hopkins county, chairman of the county association, and Guy Dunning, of Trigg county, were the chief marshals of the parade. At 1 o'clock a big meeting was held in the court house yard. Speeches were made by Congressman Ollie James, the Hon. John S. Rhea, of Russellville; Joel H. Port, of Springfield, Tenn.; and Ward Hendley, of Princeton.

Ollie James pleaded for law and order but significantly said peace would be restored only through efforts of the association members.

One of the features of the big meeting, however, was the declaration of Ward Hendley that a political scheme had been hatched to embarrass him as the Democratic candidate as a result from the state-at-large. He said that Sanford Hall and some of his companions had made an affidavit charging him with having planned the raid on Hopkinsville. Mr. Hendley said in this connection: "This information came to me through one of the leaders of the law and Order League and one of the leading citizens of Hopkinsville. He told me that he did not believe it and felt that it was his duty to warn me of the plot to make political capital and do me a personal injury."

Says Charge is False. "I denounce that charge as false in every particular. It is impossible for it to be true. I never heard of the raid on Hopkinsville before its occurrence directly or indirectly, covertly or openly. Never attended a secret meeting of any kind, never took any night rider oath or any other kind of obligation. Never heard of any raid or lawlessness prior to its culmination. I have done what I could for the association and do not deserve such treatment, yet it only shows the desperation of these cowardly cut-throats and black-mailers."

A little clash between soldiers and civilians was the only excitement of the day. This occurred when a couple of drunken men discharged a revolver. Soldiers making an investigation attempted to capture the miscreants. Two civilians were knocked down and one of the soldiers was also felled. A detachment of the troops fixed bayonets and drove back the large crowd which quickly gathered.

Brakeman Injured By Fall.

While running to catch an engine, Eugene Brasher, a colored brakeman of the Illinois Central railroad, fell and broke his left leg between the thigh and knee. Brasher was running on the walk near the Union station and tripped. His leg popped and he was carried to the Illinois Central hospital, where the fracture was reduced. The break is not a bad one, and he will be out in a short time. He lives at 1036 Burnett street.

Printers Get Increase.

Washington, Sept. 21.—Through Roosevelt's order employees of the government printing office will get an increase of ten cents an hour. This makes their wages \$1.80.

SHALL THE PEOPLE RULE?

## WARM WELCOME IN HOPKINSVILLE

For Joint Conventions of Christian Church.

Missions and Sunday School Work to Receive Much Attention at Meeting.

1,000 VISITORS ARE EXPECTED.

The state convention of the Sunday School and Missionary Association of the Christian Church will be called to order this evening at the Christian church in Hopkinsville for a three-days' session. Every detail for a successful meeting has been carefully worked out and an attractive and interesting program awaits the many delegates that will attend.

The convention will be the official merger of the Southern Missionary Association and the Central Kentucky Association and after the consolidation is perfected there the two organizations will meet hereafter as one body representing the entire state. One thousand delegates from every section of the state are expected to attend the convention and the majority of these arrived in Hopkinsville today. The rest will be in by tomorrow.

The meeting, as shown by the program, will be three days in its nature, one day being devoted to each department. Tuesday will be devoted to the C. W. B. M. Wednesday will be given over to the Kentucky Christian Missionary convention at which time the merger of the two societies will be perfected. Thursday will be the thirty-sixth annual state convention of the Kentucky Christian Bible School association.

All railroads in the state have granted a rate of one fare plus 25 cents for the round trip. The trip from Paducah and return will be \$3.25. The closing feature of the convention will be a visit to Mammoth Cave.

A number of Paducahans of the Christian church who will attend the convention are as follows: Mr. and Mrs. F. L. Scott, Mr. and Mrs. J. C. Pittsback, Mrs. W. C. Whitfield, Miss Kathleen Whitfield, Mrs. H. V. Overby, the Rev. and Mrs. S. B. Moore, Mrs. J. E. Barth, Mrs. S. B. Pulliam, Mrs. W. H. Garner, Mrs. Annie Coleman and Mrs. Will V. Green. Some of the party will make the trip to Mammoth Cave.

Below is the program of the convention for each day: Monday evening—E. J. Wells, presiding. Praise service, W. E. M. Hackleman. Address of welcome in behalf of Hopkinsville and all South Kentucky, the Rev. H. D. Smith; response, "Greater Kentucky," H. C. Garrison; "The Union of Our State Missionary Interests Commemorated," "On to Lexington in 1929," Mark Collis.

Tuesday (C. W. B. M. Convention)—"Bible Study," S. M. Ittard; president's address, Mrs. Ida W. Harrison; state secretary's report, made by district, conferring certificates by district managers; report of state treasurer, Mr. O. L. Bradley; report of centennial chairman, Miss Sallie V. ## VALUABLE BOOKS

ARE RECEIVED BY CONSUMERS FROM UNKNOWN SOURCE.

"Memoirs of Madame Remusat" secured by Al Foreman After a Long Search.

After a five years' search for a copy of the "Memoirs of Madame Remusat" an old French work that has been translated in the English language late, Congressman Al Foreman was surprised Saturday night when he received the three volumes by express. He does not know the sender, but his joy at receiving the rare books was unbounded. Congressman Foreman has one of the finest libraries in the city and has many interesting books.

Five years ago he wanted a copy of the memoirs, and has searched all of the second-hand book stores in the large cities, but could not find the copy. He left his address at every station with instructions to advise him if a copy was secured. Since then he has kept up the search. Saturday night the books were received, but no name was on the box. However, Mr. Foreman expects a letter concerning the books in a few days. The book is in three volumes, and was printed many years ago. The covers of the books are gone, but he will have them rebound and regards them as an important addition to his collection.

## A GREAT DISCOVERY.

Certain Ingredients That Really Grow Hair When Properly Combined.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean healthy condition of the scalp, which prevents the development of new germs.

Phocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant and for its well defined nourishing properties, perfect the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp is spots a bare of hair. There is no vitality left in the roots. It will positively cure baldness. If the scalp has a glazed shiny appearance, it is an indication that baldness is permanent, but in every other instance, baldness is curable.

We want everyone troubled with scalp disease or loss of hair to try "Rexall" "33" Hair Tonic. It does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print the guarantee on every bottle. It has effected a positive cure of 93 per cent of cases where put to a practical test.

"Rexall" "33" Hair Tonic is entirely unlike, and in every particular better, than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. W. R. McPherson Paducah.

## IN BANKRUPTCY.

In the district court of the United States in the western district of Kentucky, in bankruptcy.

In the matter of Hummer Hackett, a bankrupt.

On this 19th day of September A. D. 1908, on considering the petition of the aforesaid bankrupt for discharge filed on the 17th day of September, A. D. 1908, it is ordered by the court that a hearing be held upon the same on the 19th day of October, A. D. 1908, before said court, at Louisville, said district, at 10 o'clock in the forenoon, or as near the same as practicable, and that notice thereof be published one time in the Paducah Sun, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at said time and place and show cause, if any they have, why the prayer of the said petition should not be granted.

Witness the Honorable Walter Evans, Judge of the said court, and the seal thereof, at Paducah, in said district, on the 19th day of September, A. D. 1908.

## WILL NOT GO TO TAFT RALLY

Foraker Eliminates Himself From Tomorrow's Rally.

Does Not Wish to Embarrass the Candidate of the Party to Which He Declares He's Loyal.

WAS ENTIRELY VOLUNTARY.

Cincinnati, Sept. 21.—Senator J. B. Foraker has eliminated himself from participation with Judge Taft in the political rally of the National League of Republican clubs to be held here Tuesday. His action was made known to Judge Taft in the following letter, addressed to the judge today and made public by the senator:

Cincinnati, O., Sept. 21, 1908.—My Dear Judge: Having read in the newspapers that some of your friends, and possibly you, are in doubt as to the propriety of my speaking with you at Music Hall next Tuesday night, I have concluded not to attend the meeting. I take this action not because I deem the answers I have made to Mr. Hearst's charges insufficient nor because of any lack of loyalty to your cause, but only because I do not wish to do anything that might injure the cause or embarrass you personally. Very truly yours,

J. B. FORAKER.

Hon. Wm. H. Taft, Cincinnati, O.

Says It Was Voluntary.

To John Hammond, president of the National League of Republican clubs, Mr. Foraker sent this letter, which he also made public:

"I herewith enclose a self-explanatory letter that I have just sent to Judge Taft."

Sensor Foraker said on giving out the correspondence that his action was entirely voluntary, and that he had received no direct communication from Judge Taft regarding the situation.

The publicity of the letters followed a series of conferences held yesterday and today—Senator Dick and Mr. Vorys were the intermediaries yesterday. Senator Murray Crane, of Massachusetts, reached the city today and went at once to the Charles P. Taft residence, where Judge Taft remained the entire day. After an extended conference, Mr. Crane returned to the Stanton hotel, where he was met by Senators Foraker and Dick. The three lunched together in the hotel and then repaired to Senator Foraker's office in the Tipton building, where the conference was protracted until late in the afternoon, after which Senators Crane and Dick again saw Judge Taft.

Several Paducah doctors intend attending the annual state meeting of the Kentucky Medical association, which will be held in Winchester, Ky., September 22, 24 and 25. Dr. H. G. Reynolds left Sunday night for Winchester and will be present each day. Dr. J. M. Peck, of Arlington, was in Paducah today and left for Winchester to be present. The three days' session calls for an interesting program.
